## Racial profiling - an ignored reality?

Racial profiling is a police practice that marks people as suspects based on their physical appearance instead of a reasonable suspicion.

The documentary ID-Withoutcolors gives voices to affected persons, activists, scientists, politicians and police representatives to tell their point of view. Afterwards there will be a panel discussion with experts. The film is subtitled in English and for the panel discussion English translation is offered.

**ID-WITHOUTCOLORS, Wednesday - 13.12.17 - 6 pm - admission free - Cinema Pusch kino** Kardinal-Albrecht-Straße 6, 06108 Halle (Saale)
